## **DETAILED ACTION**

### ***Double Patenting***

1. Claims 1-15 remain rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-11 of U.S. Patent No. 6,706,673 for the reasons of record in the previous office action. Although the conflicting claims are not identical, they are not patentably distinct from each other because the patent claims a method of cleaning using a composition which has the same percentage amounts of the same composition presently claimed. Accordingly, it would have been obvious at the time the invention was made to make the claimed composition in order to use it as in the patented claims.

### ***Claim Rejections - 35 USC § 103***

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Claims 1-15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Klueppel et al., US 5,145,665 for the reasons of record in the previous office action
4. Claims 1-7 and 10-15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Giret et al., US 5,409,640 for the reasons of record in the previous office action.

### ***Response to Arguments***

5. Applicant's arguments filed September 8, 2005 have been fully considered but they are not persuasive. Applicant argues that there is no motivation to pick and choose

Art Unit: 1751

from among a large number of choices for each of the constituents. This is not persuasive because applicant's arguments to the effect that polyethylene glycols of MW 1,500-1,000,000 amounts to a choice among "literally millions of species" is stretching a point, to say the least. Where the reference discloses that a number of substances are equivalent, choosing any one of them is an obvious expedient. A showing by applicant that this is not the case, i.e., that applicant can demonstrate some sort of unexpected results, might add patentable weight.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
